

Northwind Traders — MECE Analysis Framework

· Power BI Report by Aakriti

Objective: Create an interactive Power BI dashboard for Northwind Traders communicating key performance metrics — covering sales analysis, customer segmentation, inventory trends, and employee performance to empower data-driven decision-making in the wholesale specialty foods market. Dataset: Aug 1994 – Jun 1996.

830 Orders | 1.27M Total Revenue | 90 Customers | 9 Employees | 29 Supplier Countries

Dashboard	Scope	Sub-Areas	Business Questions Answered	Key Metrics
